

HOW COME NOBODY ASKED ME IF I WANTED TO PAY DUES TO ICLEI?

Because they didn't have to. That's right. When your city or county (or both) became a member of International Council on Local Environmental Initiatives-Sustainable Development there was no need to ask for your permission.

Is your town a member?

Find out at [DEMOCRATS AGAINST UN AGENDA 21 DOT COM](http://DEMOCRATS.AGAINST.UN.AGENDA.21.DOT.COM)

But remember--even if you don't see your community on that list you are still being influenced by standardized programs, grants, trainings and plans funded and designed by ICLEI to influence and change government policies to bring them into compliance with United Nations Agenda 21. This is a plan for global governance. That means that you and your community will be required to meet arbitrary goals set by an unelected body—one that you have never heard of, but that your city pays dues to.

In California, one hundred and nine cities and ten counties are dues-paying members of the International Council on Local Environmental Initiatives. Your taxes are paying for trainings, seminars, and sample legislation/ordinances.

This is a whole life plan involving your educational system, your energy system, your government, your food production, your transportation, and your health. You are considered a threat to the planet and your life choices must be restricted. Do we support conservation? Yes. Do we support loss of civil rights to achieve environmental goals? NO.

ICLEI is the implementation arm of UN Agenda 21.

ICLEI fuels the fear.

ICLEI pressures the community.

ICLEI sets the goals for greenhouse gas reduction

ICLEI monitors the progress.

NOTICE

THIS CITY IS A MEMBER OF ICLEI---INTERNATIONAL COUNCIL ON LOCAL ENVIRONMENTAL INITIATIVES

ICLEI is a United Nations-sponsored group which designs and writes policy for your area on land use, energy goals and measurement, and water usage. ICLEI is a paid consultant and/or receives dues from your taxes.

ICLEI was formed after the United States (George Bush, Sr.) and 178 other nations met at the United Nations Rio Earth Summit in 1992 and agreed to use certain principles as their guidelines. Those guidelines include major reductions in energy and water usage, and huge increases in the number of living units in city centers. This is called UN Agenda 21-Sustainable Development.

In 1993 President Clinton formed the President's Council on Sustainable Development and gave a one million dollar grant to the American Planning Association to write *Growing Smart: A Legislative Guidebook* to bring UN Agenda 21 to the United States. Smart Growth was the result. Multi-story condos or apartments over small retail with little parking, crammed in your town center. The reason for this style of construction is that, as UN Secretary General Maurice Strong said, 'the affluence of Americans is a threat to the planet.' Single family homes are a threat.

Across the nation, in large cities and small towns, like this one, identical programs are being rolled out. Land use restrictions, ordinances reducing energy usage, Smart Meters, school programs, & candidate trainings, are designed and implemented without your vote. You may be invited to city visioning meetings, but the outcome is decided before you enter the room.

Using ICLEI greenhouse gas emissions goals, your local government is in the process of controlling where and how you live, what you eat, what your children learn, and what laws you will live under. With the cover of 'environmental concern' your personal rights are being restricted. Soon, you will lose the right to travel freely without being asked for your ID. Lose the right to water your garden. Lose the right to refuse a Smart Meter. Lose the right to live in a rural area. Lose the right to drive a private vehicle. Under the guise of 'Sustainable Development' your property and civil rights are being systematically eliminated.
